MR STEVE ROSE

XXXX © MYERS BRIGGS

I am proud of my 37 years continuous Railway Telecoms Project Engineering career. My in-depth knowledge and experience of all operational Telecoms systems has proved invaluable to many Railway Projects including Re-signalling, Re-control, Renewal and Electrification.

I strive to understand & provide focus on the needs of all End Users; Signallers, Electrical Controllers, Drivers, Asset Owners, Maintainers & the travelling public.

October 2024

Core Skills Set

Technical knowledge of all current railway telecoms systems including emerging IP technologies:

- Operational telephone systems for signallers & Electrical Controllers
- All generations of FTN multiplexing equipment plus Fibre & Copper cable connectivity
- Circuit requirements for all current & legacy Signalling and SCADA systems

Knowledge of standards & assurance processes:

- TSIs, Railway Group Standards and Network Rail Company standards including the standards deviation & derogation process.
- CDM & Safe by Design
- NRT Processes for circuit design & build plus temporary disconnection procedures.

Excellent relationships with stakeholders including:

- Sponsorship, Development, Asset Management & Maintenance teams
- Signallers & Electrical Operators

Business Critical processes/decision making including:

- Requirements Engineering and Early Development of options
- Risk Assessment, Hazard Identification & Mitigation
- Verification & Validation

Recent Projects

- Wales & Western Electrification
- Bristol Resignalling
- Devon & Cornwall Resignalling
- TfW Core Valley Line asset transfer & protection

Personal

When he is not working, Steve will be found behind a drum kit playing for various bands in Wiltshire & beyond.
